# Strategic Sourcing Suite Implementation & Commerce Automation
## Leading middle east airlines

**Passenger and cargo flight operator**

### Business Challenges 👍

- Requirements to migrate from SIPM to SLP
- Harmonization of supplier master in MDG and SLP(on cloud)
- Requirement to implement Commerce Automation
- Vendor/customer/employee conversion to business partner

### Solution Approach

- Migrate ARIBA SIPM  to Ariba SLP and the interfaces from SLP-> ECC(MDG)-> SLP.
- Our role include configure, build and develop interfaces for ARIBA- ECC system
- Migration from CI7 to CIG
- Implement Commerce Automation
- Integrate Master Data .

### Deployment Methodology

- Standard Ariba methodology has been used of which integration was handled by Bosch
- Project handled at onsite model where our consultants travelled to customer location at Abu Dhabi, UAE for requirements gathering and Implementation

### Benefits Realized by Customer

- Greater visibility on P2P process which include purchase requisition approval
- Supplier Enablement and evaluation using Supplier Life  cycle and Performance
- PR aggregation process optimization
- Real time supplier import MDG to  Ariba and Ariba to MDG.

**BOSCH**
